Annual Symposium
is Sponsored By:**

2009 FAOP/FCAAOP
Annual Scientific Symposium
July 16 — July 18, 2009

RENAISSANCE ORLANDO RESORT
AT SEA WORLD
ORLANDO, FLORIDA

PRESENTED BY:

FLORIDA ASSOCIATION OF
ORTHOTISTS & PROSTHETISTS
(FAOP)

FLORIDA CHAPTER OF THE AMERICAN
ACADEMY OF ORTHOTISTS AND PROSTHETISTS
(FCAAOP)

*** REGISTRATION DEADLINE - FRIDAY, JULY 10 ***
**All Registrations received after this date
(or registrations at the door)
will incur a \$25.00 late charge**

Workshops Available on Thursday, July 16

** Maximum Credit Hours: ABC - 8, State - 8 **

Winning Outcomes for a Healthier Quality of Life—Euro International

4 hrs – Candy Morin, Stephanie Olivo, Peter Reidl, CPO, Judit Trinkl, CPO

Patients achieve a healthier quality of life from better prosthetic outcomes through advances made in Silicone and Gel Liner Technology. Choose the best locking mechanisms or Vacuum System Technology based on the patient and desired outcomes.

Pediatric Gait and AFO Concepts—Allard USA

4 hrs – Joshua Ahlstrom, CPO

Assessment of pediatric gait from both bottom-up and top-down perspectives, determining appropriate AFO intervention techniques and creation of functional gait training protocols based on functional biomechanics in consideration of distal and proximal orthotic intervention.

Gomez Orthotic Systems Treatment for Scoliosis—Gomez Orthotic Systems

4 hrs – José Miguel Gómez, MD, LO

Utilization of multimedia and hands-on experience to obtain a working knowledge of the Gomez Orthotic Systems (GOS) philosophy in the treatment of spine deformities. Understanding of biomechanical principles and CAD software. Demonstration of how the fundamentals of the system work for improved orthotic management and patient outcomes.

The Lock-It Socket—Hanger Orthotics & Prosthetics

4 hrs - Addam Griner, CPO, LPO, Danny Griner, CPO, LPO,

Nathaniel Hampson, CPO, LPO, Geoffrey Hemmen, CPO, LPO

A basic approach to more functional outcomes for short trans-femoral and hip disarticulation amputees. Evolution of the Lock-It Socket as well as coverage of evaluation, casting, fitting, dynamic alignment, troubleshooting and identification and fabrication for patients.

CPR—FAOP (This class will be offered on Thursday and Saturday—Limit 50)

4 hrs - Lisa Carlton, RN

Adult, child and infant CPR, information on chain of survival and warning signs of cardio emergencies, signs of heart attack, stroke and choking.

This is a Mandatory Course for State Licensure

Plié Microprocessor Controlled Microprocessor Knee—Freedom Innovations

4 hrs - Molly Cooper, CPO, LPO

Proper use, patient selection, and maintenance of the Plié Prosthetic Knee. Participants will be able to adjust the knee on a patient model using tools and software provided.

Shoes and Foot Orthotics for Today's Profession—Orthofeet

4 hrs - Paul Barattiero, CPed

Inserts (Heat moldable vs. custom), foot/shoe anatomy, how and when to steer patients into a more appropriate shoe, pearls of wisdom in fitting patients, fitting tips with Edemic patients.

Contracture Management—Restorative Medical, Inc.

4 hrs - Karen Lawson Bonn, RN, COF, RFO

Anatomy related to contracture treatments that will help with restorative patients. Restorative patients may have Traumatic Brain Injury, Spinal Cord Injury, Cerebral Palsy, etc.

Information on how to successfully build a Part B business in long term care facilities.

Amoena Certification Mastectomy Fitter Training Seminar—Amoena

8 hrs - Judy Roberts, CFm, CMF

Matching products with surgery type needs, practical hands-on fitting experience and master key fitting techniques in preparation to become an expert fitter. Mastectomy Certification.

Note: Only FEMALE attendees may attend this course.

DETACH HERE AND MAIL TO FAOP BUSINESS OFFICE

Classes Available on Friday, July 17

**** Maximum Credit Hours: ABC - 6.5, State - 6.5 ****

Keynote Speaker

0.5 hours - Ray Guillemette, Jr.: A Ray of Elvis
 Redefining "DIS = Ability!" - D-iscovery: Act or instance of discovering.
 I-nsight: Understanding motives and reasons behind one's actions,
 S-uccess: Achievement of something desired, planned, or attempted.

Evolution in the treatment of Scoliosis and other Spinal Deformities

1 hr - José Miguel Gómez, MD, LO
 Evolution of treatment of spine deformities and use of new technologies
 in evaluation and design of spinal orthoses for optimal treatment
 outcomes. Emphasis on patient symmetry, cosmesis and spine stability.

**Achieving Full Suction Suspension of a Transfemoral Socket
with an Interface**

1 hr - Dan Strzempka, CPO, LPO
 Using the Alp's Full Suction liner to achieve full suction suspension in a
 Transfemoral socket and how it overcomes challenges previously faced
 with other suction liners. Ideal Candidate selection, techniques,
 procedures and maintenance will be covered.

Stance Phase Locking Orthotic Knee Joint (SPL-2):

A Clinical 'Best Practices' Program

1 hr - John F. Schulte, CPO, FAAOP
 Solutions that will enable the practitioner to provide controlled motion of
 the LE knee joint during gait rather than Joint Locking. Interactive
 discussion will allow for clinical informed decisions on patient criteria,
 component selection and design.

Uncompromising Attention to Detail: Undetectable Prostheses

1 hr - Robert R. Barron, Retired Agent - C.I.A. Disguise Branch
 Overview of how exquisitely personalized, realistic and functional
 prostheses are made. Review of steps required to create a custom
 undetectable prosthesis for: Auricular, Orbital, Nasal, Digital, Full Face
 and Areola areas. Mr. Barron has appeared on Discovery Health,
 National Geographic, Oprah, Montel, ABC Prime Time and others.

**Electronic Medical Records and Workflow Management Software
for the O & P Facility**

1 hr - Paul Prusakowski, CPO, LPO, FAAOP
 Using a comprehensive practice management software to move your
 practice toward seamless and paperless operation to provide a high level
 of accountability, reliability and systematic monitoring and organization.

**** REGISTRATION DEADLINE - FRIDAY, JULY 10, 2009 ****

All Registrations received after this date (or registrations at the door)
 will incur a **\$25.00** late charge

Classes Available on Saturday, July, 18

**** Maximum Credit Hours: ABC - 8.5, State - 8.5 ****

Postoperative Cranial Remolding Orthosis for Craniosynostosis

1 hr – Darren J. Poidevin, CPO, LPO

Practice and procedures for use of a cranial remolding orthosis as an adjunct to the endoscopic surgical treatment for craniosynostosis. Includes design of sagittal, metopic, coronal, bi-coronal and lambdoid synostosis.

Using Gait Analysis to Determine Orthotic Management

1 hr – Dan Mason, MD (Orthopedic Surgeon)

Evaluating gait deviations using a gait lab to determine the best orthotic treatment plan. This presentation will review the best treatment options based on the computer evaluation of the patient.

Vacuum: The Good, The Bad and The Ugly

1 hr – Stan Patterson, CP

Brief overview of the NPS: Negative Pressure Suspension system, myths and misconceptions about vacuum technology and hard-learned lessons. Open panel discussion will allow for Q & A with AK, BK and Hip vacuum socket users.

The History of O & P

1 hr – Russell J. Hornfisher

Explanation of the O & P Industry including who coined the name Orthotics, who founded the Almanac, who created the technique of casting and how the industry and the delivery process has changed over the last 100 years.

Infection Control for the O & P Profession

1 hrs – Sheryl Chewning, RN, CIC, CPHQ, LHRM

Proper Universal Precautions, current infections, bacteria and diseases, and skills to maintain a clean and safe O & P Facility for patients and staff.

This is a Mandatory Course for State Licensure

Florida O & P Licensure Law & Rules

2 hrs – Hugh Panton, CPO, LPO, FAAOP

Review of the current laws and statutes for O & P Professionals in Florida. Includes identifying red flags, business practices and how to report illegal activity.

This is a Mandatory Course for State Licensure

Medical Errors & Omissions for the O & P Profession

2 hrs – Sheryl Chewning, RN, CIC, CPHQ, LHRM

Identification of diagnostic errors, National Patient Safety Goals, & risk management measures to prevent medical errors and increase patient safety.

This is a Mandatory Course for State Licensure

** Participants will be able to earn a maximum of 2 additional credits (both State and ABC) by visiting the Exhibit Halls and filling out the Exhibit Hall Attendance Form (Category II - ABC). These credits will be submitted once your completed form is received. These credits can be earned Friday AND Saturday **
